Card of Thanks to Dr Chong.

AFTER BEING TREATED FIVE MONTHS by a white doctor, and spending nearly $300, I was worse than when I first went to him. I had quite despaired of being relieved when I read Dr Chong's Card in THE COLONIST. I placed myself under his care and in NINE DAYS I was a well man. I write this card to discharge a debt of gratitude I owe to Dr Chong, which charge, I may also say, was reasonable. My complaint was neuralgia. WILLIAM McCORMICK.

C. FRANCIS BARNARD, MD.
SURGEON DENTIST.

DR. BARNARD HAS HAD FOR several months the "Perkins Hyatt" or "Celluloid Base," the newest and latest material adapted to the mounting of whole sets of teeth; he is also using "Whalebone-Rubber," which is rapidly supplanting, for single dentures or partial sets, the best vulcanites of the last 25 years.

We cheerfully add Dr. B's Card to our columns, convinced that his good taste and judgment, united to natural skill and ingenuity, aided by an extensive practice of upwards of thirty years, render his services more valuable and reliable than those of any other Dentist on the Sound, Coast or Island.

Dr. B's large experience may be readily seen in the happy and natural expression given his patrons by his life-like insertion of artificial Teeth.

The public may rest assured of patience, gentleness and undivided attention while under the Dr's hands, and that he will ever strive to be foremost in adopting helps and hints touching his own interest and that of his patrons.

THE BRITISH COLONIST.

Thursday Morning, June 13, 1872.

Domestic Postal Service.

The presence of Mr Dewe, the very efficient Chief Inspector of the Postal Department of the Dominion, will be a sufficient reason for reverting to the subject of our internal postal service. It is presumed that the entire service will be at once reorganized upon a different and very much more efficient basis than the present. In the first place, we desire to point out the necessity that exists for an increased service between the seaboard and Cariboo. The mail route now under consideration constitutes, so to speak, the arterial service of the Mainland, and, consequently, upon its efficiency must, to a great extent, depend the collateral service. Considering the largeness of the interests depending upon that service, we do not think it would be too much to expect that it should be doubled, i. e, that it should be semi-weekly during the eight open months and weekly during winter. In any case, the country should not be put off with any less than a weekly service the year round. There appears to be no reason whatever why the service should not be semi-weekly as far as Yale, during open navigation, and twice a week as far as New Westminster during the entire year. In order to reach the various settlements on the Mainland removed to a greater or less distance from the arterial highway, it will be necessary to establish numerous branches. And it is here, in all probability, that the chief difficulty will present itself. The settlements are so scattered and the distances to be overcome in some instances so great, that the expense of an adequate service may cause Mr Dewe to hesitate. But this is only a temporary difficulty, and it is for the Federal authorities to consider how far they would be justified on these grounds in leaving hundreds of hardy, adventurous pioneer settlers and miners in the Pacific Province destitute of a mail service. It is the boast and glory of Old Canada that the mail carrier ever follows close upon the heels of the settler. And Canada has a right to glory in this behalf. Glancing at the Returns for 1871, we find that, in the four original Provinces there are, in round numbers, four thousand post offices. There are thirty thousand miles of postal route; twelve million miles annually travelled by mail. There were twenty-seven million letters and postal cards transmitted during the year, together with twenty-two and a quarter million newspapers, and sixty four thousand parcels. The number of money orders issued during the year was 111,530, and the amount of money represented thereby rose above four and a half million dollars. The annual cost of maintaining the system is $1,271,006,60 and the revenue derived therefrom $1,079,767,77, leaving the department a direct charge upon the general revenue to the extent of nearly two hundred thousand dollars. It will be admitted that these figures do not do discredit to a new country whose entire population falls below four millions. And these are facts which have encouraged the people of British Columbia to expect great things from Canada in respect of the mail service. Take the East Coast service, for instance. A weekly service between Victoria and Nanaimo is so manifestly inadequate to the just demands and expectations of the second community in the Province that no word is needed from us to enforce the claim for increase. Then, again, there is Comox. Surely Canada cannot find it in her heart to put such an important settlement off with two mails a month. The east coast service would naturally form the base for branch services penetrating to the various settlements in the interior; and these might be weekly or semi-weekly, as the nature of the case might seem to justify. Turning to those settlements supplied direct from Victoria, we find Sooke with a monthly mail service, and Metchosin and Saanich with a weekly service respectively. Now that communication to Sooke by land is being made good, it is not too much to say that, in connection with Metchosin, it should have a weekly service. Saanich ought undoubtedly to have a semi-weekly service. The settlement is a large and important one, and, inasmuch as the trunk road is being macadamized its entire length, the increased service would not, we are led to believe, greatly increase the expense. In thus advocating a material improvement in the internal mail service of British Columbia, we have no desire to involve the general Government in unreasonable or unnecessary expense. But we are solicitous that the same praiseworthy zeal and liberality should mark the administration of this department in the Pacific Province that has earned for Canada so high a reputation on the other side of the continent. The people of British Columbia have been taught to expect great things from Confederation in this respect, and it would be a pity to disappoint them. In all civilized countries the people are particularly sensitive in regard to mail accommodation. The higher the state of civilization the more sensitive people are on this point. In this respect the people of the Pacific Province are certainly not behind those on the Atlantic; and it is hoped the Federal authorities will even strain a point to meet the wants of this Province. The expense of such a service as we advocate may possibly appear to be disproportioned to the present population and just expectations of the country. But it is by a liberal policy alone that British Columbia can prosper; and the Government must sow now if it would reap hereafter.

A. GILMORE, MERCHANT TAILOR, and General Outfitter, has removed his place of business to the store adjoining the Colonial Hotel and opposite the Colonist Office, on Government street, fourth door from Yates, where he proposes to give his old friends and new customers a chance on the principle of quick sales and small profits. *

MR. NATHAN, M. P.

This gentleman will be a Candidate for e-election to the Commons for Victoria City.

Ministerial Extra-Parliamentary Utterances.

The Herald comes to us with a very interesting report of the banquet given to the Ministry by the people of New Westminster on Friday last. Inasmuch as this is the first opportunity Ministers have enjoyed of indulging in "extra Parliamentary utterances" the general public may be curious to know what was said. We regret our inability to give the Premier's remarks in full. The Hon Mr McCreight accepted the demonstration as proof that the Ministry had not been unsuccessful in administering public affairs. At the beginning of the session they only expected a fair field and no favor. But they had got more; there was scarcely any Opposition. The first session has shown conclusively that Responsible Government would be a success. It was fortunate for the country that the Ministry had been sustained. The fact that the Province had a strong Govenment would inspire confidence abroad, and would be beneficial at the present juncture, when capitalists who were to build the Railway had their attention directed to the country. As the Government, unfortunately, had no organ, he would take the opportunity of saying a few words about some of the measures which had come before the House.

The Civil List Bill he considered bad in principle—it was a declaration by the old Government of want of confidence in the Responsible system. He had, therefore, considered its repeal necessary and just. He showed that many officers required under the new system were not provided for by the Civil List Act. He thought the repeal of the Road Tolls a very good thing, and showed that the tolls were a crushing tax upon industry in the upper country—a tax that was imposed in the most unjust way, by weight—a pound of machinery having to pay just the same as a pound of cigars or brandy. The School Bill he regarded as an experiment. The Provincial Secretary had taken great pains with it. but, nevertheless, he believed that it would require amendment from time to time. One thing had been done by the Ministry which would, he believed, meet with universal approval. Up to the time of the meeting of the House no provision had been made for taking proper care of lunatics—they had been sent to the common jail—to a living grave. Now they had about completed measures to take care of them properly. When first he took office it struck him that there was not a sufficiently large quantity of arable land available in the lower country, and he had thought of dyking the land at the mouth of the Fraser; but, then, were the land dyked now, it might be found that the Province had spent its money for the benefit of the railway company. In a short time the route of the railway would be decided and then this matter would be seen to.

The Premier was loudly applauded as he resumed his seat.

The Hon Mr Robertson, Provincial Secretary, followed in a few well-chosen remarks. The occasion, he said, was peculiarly gratifying to him, as it was in New Westminster he held his first brief and earned his first fee, and New Westminster was the first to approve of his public acts. He alluded particularly to the School Bill, with the preparation of which he had been specially charged. The bill had met with a good deal of outside criticism—its non-sectarian character was attacked by some; but the argument which had occurred to him and sustained him was this—The great object of the bill was to secure the education of the children, and the non-sectarian system was the best to secure that. Then objections had been made to free education; but he considered that as ignorance was a fruitful source of crime, it was better to spend money in the prevention of crime by educating than to spend it punishing the criminals. In conclusion he thanked them heartily for their expressions of kindness and support.

The Hon. Mr Walkem, Chief Commissioner, said he, too, had been greatly indebtee to New Westminster, and he saw around him many friends who had helped him in his early struggles He made a humorous allusion to the opposition the Ministry had met with, complimented the New Westminster members upon the pertinacity with which they had worked for the interests of their constituents, and concluded by alluding to the importance wealth and resources of the Dominion. He, like the others, was enthusiastically applauded.

The Hon. Mr Holbrook was glad or this expression of public opinion. He had a very high opinion of the Ministry, and was proud of being a Canadian. Canada was even more loyal than England herself. He held in his hand a piece of silver ore which would bring 300 000 men to the District.

The remarks of Mr Marcus Smith, although not properly coming under the heading under which we write, may be added. Mr Smith said he had a high opinion of the Province He could say nothing yet as to the route of the railway His instructions were to find the best route for the whole Dominion (hear, hear) He thought people troubled themselves too much about the terminus The best place *per se* was the best place for all He thought the country rich and that it would go ahead He had been a wanderer for many years and could never settle down anywhere, but he began to be afraid that he could never leave British Columbia (hear)

The Bute Inlet Survey.—H. M. S. Boxer, Lieut.-Commander Fitzgerald, came into the harbor yesterday morning. To-morrow afternoon at 4 o'clock the railway surveyors, with their baggage and implements, will be received on board the Boxer and taken round to Esquimalt harbor, where they will be transferred to H.M.S. Scout, The Scout and Boxer will then sail for Bute Inlet, at the entrance of which the parties will be again received on board the Boxer which will carry them to the head of the Inlet and land them at Waddington Harbor. The non-arrival of the Prince Alfred to-day may somewhat delay the departure of the expedition, of which, however, due notice will be given.

The steamer Enterprise, Capt Swanson, arrived from New Westminster at 3¼ o'clk yesterday afternoon with the following passengers:—Miss Lizzie Irving, Miss Lizzie Dasey, Geo Dietz, J Cunningham, F Eikoff, C Hughes, J Sprat, J Wolfe, J Dickson, W, Dickson.

City Council.

The Council met at 7:30 o'clock last evening. Present—His Worship the Mayor, and Couns. Gower, Taylor, Robinson, Mitchell and McMillan.

Minutes of previous meeting read and adopted.

The Clerk read a copy of a communication addressed to H. F. Heisterman, in accordance with the order of the Council with regard to the lease of the Council Chambers. No definite answer had been received.

Small accounts from several parties were referred to Finance Com.

Tenders for the drain down Johnson street ravine were received from Humber & Goode, $9,000; Kinsman & Styles, $8,250.

Coun. Robinson moved that the tenders lay over until the bye-law in reference thereto be assented to by His Excellency the Governor.

Coun McMillan moved, That, whereas, it is necessary for the public health that a sewer be constructed down Johnson street ravine from Blanchard street to Store street. Be it resolved that an Attorney be employed to draw up a by-law to enable the Council to borrow $—— for the construction of the sewer.

Coun Mitchell seconded.

Coun Gowen spoke against employing an attorney to do the work. The very lawyers who drew up the by-laws for them did it in such a way that any one could drive a coach and six through them, and the lawyers themselves were the first to pick at and pull them to pieces. He thought the Council were quite as competent as the lawyers to draw up a bye-law.

The movers agreed with Coun Gowen in his opinion and altered the motion accordingly

Coun Gowen then spoke against the motion as a whole. He thought the Government would never sanction the bye-law. He advocated a temporary abatement of the nuisance by a wooden box-drain.

After some discussion it was resolved to reconsider the motion for laying over the tenders.

Coun Robinson moved that the persons tendering be requested to give separate tenders for constructing a culvert, like that on Broad street, under Douglas, Government and Store streets, stating the price per foot.

Seconded by Coun Gowen and carried unanimously.

The Council then adjourned.

New Westminster Items.—The North Pacific Railway Company's men are surveying from Bellingham Bay to a point near New Westminster. They foolishly imagine the Canadians will make our line a feeder to the North Pacific......There has been within a few days a decline of from 3 to 5 cents per pound in the price of butchers' meat........A meeting was held in the Hyack Hall on Saturday evening last to consider whether it would not be advisable to take some steps towards having the Government House at the Camp handed over to the Provincial Government to be used as a Gov. House, instead of being converted into a residence for the Warden of the Penitentiary as proposed in Mr. Langevin's report. A resolution was propose to the effect that in the opinion of the meeting Government House should be released as such, that is, handed over to the Provincial Government. The resolution was opposed by Mr J C Armstrong and others, who feared that it might endanger the building of the Penitentiary here, but the supporters of the resolution assured them that there was no ground for such fear, and it was finally passed and ordered to be transmitted by telegraph to Mr. Langevin and Mr. Nelson......The timbers are all out for the W. M. Church at Maple Ridge and the work of building will be commenced forthwith. The church is to have a tower and bell and will, when completed, be an ornament and a credit to the settlement.... The blow of last week did some damage at English Bay, the surf breaking up a boom and causing the loss of a number of logs.... A handsome monument of Newcastle stone, cut by Mr. Geo. Kursop of this city, has been erected over the remains of the late Dr. Black in the Masonic Cemetery.

The Reason Why.—Complaints are constantly rife that newspapers from Europe do not arrive here. The cause is that the Post-office officials insist on the postage being prepaid in full. A single rate of postage is charged for every four ounces. Many papers weighing over that amount are posted, prepaid with only the single rate of postage, and on that account cannot be sent. Among those which are generally above the four ounces are "The Illustrated London News," "Times," "Graphic," "Queen," "Lancet," "Engineer," "Hereford Times," "Engineering," "Pall Mall Budget," "Guardian" and "Field." Those who take these papers are very apt not to receive them unless they see to and remedy the error above mentioned.

We love them! we love them!
And who shall dare
To chide us for loving
A thing so rare?

As strawberries grown at the nursery of Mayor Clarkson, at New Westminster, two boxes of which were received by us yesterday from the Victoria agent, Mr W B Townsend, who received 400 lbs of the delicious fruit yesterday and will be in constant receipt during the season.

The Board of Trustees for the school district of Victoria met last evening to consider the plans which had been drawn up by Mr C Vereydhen of the repairs required for the school-house, which were submitted by the committee, and on motion it was resolved to invite tenders for the work in order to ascertain the cost.

Delightful, Is it Not?—The Prince Alfred over seven days making less than 800 miles and not signalled at twelve o'clock this morning. How long is this sort of thing to continue?

Geneva Conference.—This august body will hold its first sitting on Friday; and, after organizing will probably adjourn till the Monday following.

Ox-Team.—The editor of the bulletin-board, yesterday, wishing to state that the Prince Alfred was *non est*, posted up, "The ox-team is not in sight!"

Lot for a City Pound.—The City Corporation have purchased lot 318 on Yates street, this side of Buckley's Ball Court, for the purposes of a City Pound.

Clotilde Romano.—We direct particular attention to the advertisement of this lady, which appears this morning.

The Buoys.—The Sir James Douglas was engaged in resetting the buoys when the Enterprise passed the heads yesterday.

Our Sidewalks.—"A Sufferer" writes to complain of the unsafe condition of the sidewalks.

The tower-posts of the new Cathedral are in position.

The Good Templars of this city have abandoned their organization.

Police Court.—A blank record yesterday.

Fell's Coffee, superior to any other manufactured on the Coast, may be obtained of al respectable dealers throughout the Colony. *

Very Important Notice to all Scotchmen.

Mr Editor.—If any of you gentlemen belonging to that interesting country are in want of the much praised emblem of your native land, (the Thistle) you can supply yourselves without any expense by visiting the yard belonging to the Jewish Synagogue. There you will see them growing in the most luxuriant manner and in quantities equal to your most sanguine expectations.

P.S.—I don't make any charge for this information—it would be no use Y. W.

Our Sidewalks.

Victoria, June 12th, 1872.

Editor Colonist.—Yesterday evening I was walking with my daughter on the sidewalk on Blanchard near Fort street when we were suddenly tripped up and had nearly fall enon our faces, occasioned by some loose boards. I have frequently observed that several of the sidewalks in the upper part of the city are in a disgraceful state. I wish you would call the attention of the City Fathers (or I should rather say the Step Fathers of the City) to this real nuisance and

SPECIAL TO THE DAILY BRITISH COLONIST.

LAST NIGHT'S DISPATCHES.

Eastern States.

Washington, June 11.—The President wrote his acceptance of the Philadelphia nominations while at the Capitol yesterday, after his return from the reception of the Executive.

About 2,500 prominent Democrats, representing Virginia, Texas, Indiana, Kentucky, Illinois, Arkansas and New York, held a secret meeting last night at Owen House, and resolved that in event of the Baltimore Convention endorsing the Cincinnatti nominees they would take steps to call another Convention and put forth a ticket for President and Vice-President in the field.

Despatches have been received by Secretary Fish from Gen. Sickles notifying the department of his action in the case of Dr. Howard. He expresses the opinion that the Spanish Government will promptly comply with our demand for his immediate release. Admiral Pole, Spanish Minister at Washington has given the department a similar assurance.

New York, June 11.—A Washington special says the President before leaving the city told a prominent member of the Senate, that in his judgment the British Ministry had no intention of allowing the treaty to fail. The drift of opinion among all classes here on the course of English Government in regard to the Treaty is that of intense disgust and dissatisfaction and hope is expressed that our Government will not attempt to enter into a further negotiation, but leave England to assume the responsibility of defeating the Geneva Conference.

Washington, June 11.—Commissioner Douglass decides that tobacco stock for export, in tobacco warehouses, may be withdrawn at reduced rates on and after July 1st. He decides that snuff is liable to tax of 32 cents per pound.

All the members of the Cabinet are absent from Washington except Robeson, Delano and Cresswell.

Singer's Sewing Machine Works expect to open on Monday next with the ten hour system, the eight hour movement seems to be collapsing.

Dover, Delaware, June 11.—The Democratic State Convention met to day and passed resolutions bitterly denouncing Grant for declaring the 13th, 14th and 15th amendments to the Constitution as frauds upon the people.

Tallahasse, June 11.—The Conservative Central Convention to-day appointed delegates to the Baltimore Convention, the majority of whom pledged themselves to favor the acceptance of Cincinnatti nominees, but will abide the action of the Baltimore Convention.

Europe.

London, June 11—In the House of Commons to-day Gladstone stated that the present condition of the Alabama negotiation was a proposition to the United States for a postponement of the meeting of the Geneva Board for eight months which was already known through the specials from America to the English press.

Osborne asked whether the dispatch purporting to be from Granville proposing the postponement of the Geneva Tribunal was genuine He considered it was humiliating and undignified.

Gladstone said the dispatch was genuine and defended the proposition as honorable to both parties.

Disraeli strongly opposed the proposition for a postponement, particularly while the present Presidential contest was in progress in the United States. He believed that the policy of the Government would end in disaster and disgrace.

Lord Yarmouth, Sir G S Jenkenson, Lord Bentinck, Gordon and others severely criticized the Government, expressing a want of confidence in the future proceedings.

Gladstone defended the Government at great length and closed with a declaration that it would be a crime to deviate a hair's breath from the original proposition.

In the House of Lords Granville made his statement and said that on Saturday it became known whether the British and American Governments would fail for want of time to come to an agreement in regard to the Supplementary Article. The difficulty between them related to the future bearing of its conditions. The Americans censured the English objections as hypercritical. He had consented to the idea of the adjournment of the Geneva Board to give time for the removal of the difficulties. To-morrow the British Agent and Representatives start for Geneva, for it would be disgraceful and uncourteous not to appear before the Arbitrators. Whatever circumstances might arise instructions and full powers had been given them.

The Republican Ratification meeting, held last evening, was addressed successively by Governor Booth, G B Felton, Rev C Games, G M Davis, Prof Liffett, Nathan Porter and W. H. Sears. All the speakers referred enthusiastically to the administration of Grant as a model of statesmanship, ability and purity, and expressed unqualified confidence in the success of the ticket.

The grand ball to the officers of the German war ship Hertha will last all night to-night, and immediately after it is over she will sail for Europe via Cape Horn.

The machinery for the Condoro Mine, Ely District, Nevada, will be shipped to-day. The crushing is to be done by the English roller system, and it is claimed that fifty tons per day can be reduced in this manner. The rock goes direct from the crusher to the pans, no stamps being used.

The following is a resolution adopted by the Republican Ratification meeting last night:

Resolved, That we, the Republicans of San Francisco, in mass meeting assembled, do ratify the ticket nominated at Philadelphia; that we endorse it unanimously and unitedly, and that we go into this campaign, and then into the election with a determination to give a larger majority than we did four years ago.

San Francisco, June 12.—Judge Asher B. Bates, who has just resigned his position as Federal Registrar of Bankruptcy, has become wholly blind and is physically helpless, though in full possession of his mental faculties. His resignation when first offered was refused acceptance by Judge Hoffman, but finding his case hopeless, Judge Bates insisted upon its being accepted and spread upon the records. There is a perfect rush of applications for the position made vacant by his resignation, and one of the applicants, Paul Newman, left for Washington to-day to secure it.

Jerry Jones, who went to the Alhambra, flourishing a revolver in the dress circle, and when requested by the usher to put it up, fired at him, putting a ball through his hat, was to-day committed for trial for assault to murder.

Second Dispatch.

Eastern States.

New York, June 12.—A Washington special says: Yesterday the British Minister received a telegram from Earl Granville stating that a Cabinet meeting had been held, and it was decided to send another note to Minister Schenck informing him that the representatives are instructed to go to Geneva on the 15th inst., and submit to the arbitrators request for an extension of time on the plea that the difficulties between the two Governments had not been solved and the remarks upon the subject were a matter of reference to arbitrators, and that the British Government declines to put in their argument as required by the treaty, or to take any other step in the arbitration at the present time; and further, should any adjournment be ordered in accordance with what England believes within the authority and power of the Court, Her Majesty's Government reserves all its rights as perfect to retire from the arbitration whenever it may think proper. No answer will probably be sent to this last proposition as the ultimatum of our Government is on the supplemental article, and if English argument is not filed on 15th, it will be regarded as a desire to terminate the arbitration and a failure of this arbitration involves the whole treaty.

The New York State Superintendent of public instruction has decided against the exclusion of the reading of the Bible in public schools.

Baltimore, June 12.—At Democratic primaries yesterday, every ward elected Greeley delegates.

Indianapolis, June 12.—The Democratic State Convention met at 12 o'clock this morning. Thomas A. Hendricks was nominated for Governor by acclamation.

New York, June 12,—A special dispatch from London says, that the assemblage of the Geneva Arbitration is the great subject of discussion there. No provision in the treaty requires a meeting of the arbitrators on June 15th, but they had intended meeting on that day as both Governments must then deliver their final papers, or if the meeting assembles they must close their arguments. The difficulty of the case is that England requests the U. S, to join in a postponement of the meeting, but not that the meeting is positively provided for. If England asks for a postponement, the request involves a consent to the violation of the treaty, or to a purpose contrary to the American views. The general feeling in Europe is that England is afraid of the arbitrators.

It is said in high quarters that Russian money is opposed to English interests. Count Catacazy is mentioned as continuing on this side of Atlantic for work for which he was expelled from Washington. It is believed Gortschakoff's diplomacy and purse are opponents too formidable to be safely encountered.

Matamoras, June 12—General Caballis telegraphs today that he has established headquarters at Camargo having repulsed several attempts of the Revolutionists to advance on the frontier.

The Canadian Trade Disputes.

Hamilton, May 10.

Yesterday the arbitration between James McKay, of Hamilton, and Messrs. Hyslop & Roland, machinists, of Chatham, respecting an alleged breach of contract in the building of the steamer propeller City of Montreal, by which she was not seaworthy, was begun before a large number of witnesses in the Royal Hotel. It is expected that the investigation will last for some time.

This morning the workmen employed at the marble works of Mr. S. McCombs, on Merrick street, presented a petition asking for the nine hours system, but contrary to their anticipations, they were quietly told by Mr. M Combs that their services were no longer required.

About three this afternoon, at Messrs. Gurney & Ware's scale works, a paper was taken around to the men who were told either to sign or leave. The paper was to the effect that they should work on as usual, *i. e.*, ten hours a day, and not agitate for the nine hour system. Quite a number of the men signed; the rest are being paid off.

This evening at 6 o'clock nearly all the foundries and manufacturing establishments which have not conceded the nine hours paid off their men, informing them that there would be no more work for the present, and that it was their intention to take into their employ only those men who would sign an agreement to the effect that they would continue to work ten hours a day, and also not agitate for the nine hours question nor in any way support it. There are now supposed to be upwards of fifteen hundred men out of employment.

Holloway's Pills.—The blood is the very essence of health and life. It furnishes the components of flesh, bone, muscle, nerve and integument. The stomach is the apparatus—the arteries the distributors, and the intestines the channels by which the waste matter is carried off. Upon the stomach and bowels these medecines act simultaneously. 25 cents per box or pot.

A Dead Delusion.

The theory that human beings whose strength has been exhausted by pain and sickness can be restored by depleting medicines and water gruel, if not absolutely a dead delusion is in the last agonies of dissolution. At length it is understood that strength cannot be purged into a debilitated frame, though life may easily be purged out of it and that it is about as wise to withhold a healthful stimulant from the weak in the expectation that they will rally without one, as it would be to deprive a lamp of oil and expect it to burn the brighter for it.

The immense and uniform success which has attended the use of that wonderful combination of a pure stimulant with the finest medicinal herbs, known as Hostetter's Stomach Bitters, has largely assisted in dispelling the absurd chimera. Frantic attempts are made to revive it but in vain. When the sick feel that their strength is departing and that unless invigorated they must utterly break down it is in vain to tender them feculent slops in the place of genuine restoratives. They may be imposed upon in this way once, but the imposition cannot be repeated. They desire to be refreshed, comforted, braced up and decline to be griped a second time.

Under the operation of the bitters, on the other hand, all the processes necessary to physical restoration go on simultaneously. The system is stimulated and toned, the bowels regulated, the appetite cultivated, the nerves composed and the condition of the blood improved at one and the same time by a single medicine. Common sense tells us that such a preparation must be in valuable.

BRITISH COLUMBIA

ESQUIMALT GRAVING DOCK.

THE GOVERNMENT OF BRITISH Columbia are prepared to receive Tenders for the construction of a Graving Dock at the Naval Station Esquimalt Harbor, under the guarantee provided in the Twelfth Section of the Terms of Union of this Province with the Dominion of Canada, which Section is in the following words:

"The Dominion Government shall guarantee the interest for ten years from the date of the completion of the work at the rate of five per cent per annum, on such sums not exceeding £100,000 sterling, as may be required for the construction of a first class Graving Dock at Esquimalt."

The Dock to be of masonry, and of not less than the following dimensions:—

Length on floor 370 feet,
Do over all 400 feet,
Width between copings 90 feet,
Do on floor .... 45 feet,
Do of entrance........ 63 feet.

To afford a depth of water on the sill of not less than 26½ feet at high water springs, and to be substantially constructed to the approval of Government, upon a site to be provided by the person whose tender may be accepted.

Further particulars as to site, borings, &c., may be obtained from T. A. BULKLEY, Esq., Chief Engineer to Government, upon application in writing to the Chief Commissioner of Lands and Works.

Tenders must specify the time within which the Dock will be completed, and must be accompanied by drawings and descriptions, showing exact dimensions, materials and mode of construction of proposed Dock.

Tenders are to be sealed, superscribed "Tender for Esquimalt Graving Dock," addressed to the Chief Commissioner of Lands and Works, Victoria, British Columbia, and delivered at his office before noon of the 15th day of November, 1872.

Persons who may consider the above guarantee to be insufficient, are at liberty to tender on the basis such supplemental guarantee by the Provincial Government, or upon such other financial inducements as they may suggest.

The Government do not bind themselves to accept the lowest or any tender.

Each Tender must be accompanied by a Bond from the Contractor, and two sufficient sureties, for the payment of £10,000 to Her Majesty, Her heirs and successors, conditioned upon the due fulfilment of the Tender which it accompanies, provided it be accepted within three months from the said 15th of November.

By Command.

HOLLOWAY'S

PILLS AND OINTMENT.

TRADE MARK

Every Man his own Physician.

CAUTION.

THE immense demand for HOLLOWAY'S PILLS and OINTMENT has tempted unprincipled parties to counterfeit these valuable medicines.

In order to protect the public and ourselves, we have issued a new "Trade Mark," consisting of an Egyptian circle of a serpent, with the letter H in the centre. Every box of genuine HOLLOWAY'S PILLS AND OINTMENT will have this trade mark on it; none are genuine without it.
